Section 9: Notes on retirement

Your T-day vested and T-day non-vested portions make up your vested component

- For a provident fund member who was younger than 55 on 1 March 2021, the vested portion of their vested component is all their accrued retirement savings on 28 February 2021; and their non-vested portion is their retirement savings accumulated in any fund from 1 March 2021 onwards.
- For a provident fund member who was 55 or older on 1 March 2021 and remained a member of the same provident fund until their retirement, the vested portion of their vested component is their accrued retirement savings on 28 February 2021 plus all their retirement savings accumulated from 1 March 2021 onwards in such fund. The vested component of these members will not have a non-vested portion.
- For a provident fund member who was 55 or older on 1 March 2021 but transferred to a new fund after 1 March 2021, the vested portion of their vested component is their accrued retirement savings on the date of their transfer to the new fund; and the non-vested portion of their vested component is all their retirement savings accumulated in the new fund and in any other fund thereafter.
- The vested component of a pension fund member will only have a non-vested portion except if the pension fund member transferred from another provident fund to a pension fund, in which case such member's vested component will also have a vested portion.
- You can choose to take the whole or a portion of the vested portion in your vested component as a cash lump sum. You can take up to 1/3rd of the non-vested portion in your vested component as a cash lump sum. You will have to use the remaining balance in your vested component, ie 2/3rds of the non-vested portion, to buy an annuity; except if the total amount in your retirement component plus 2/3rds of the non-vested portion in your vested component, is equal to or less than R165 000.
- You must use the full value in your retirement component to buy an annuity. You may not take any money in cash from your retirement component except if the total amount in your retirement component plus 2/3rds of the non-vested portion in your vested component, is equal to or less than R165 000.
- You can choose to take the full balance in your savings component as a cash lump sum. You must use the remaining balance in your savings component, if any, to buy an annuity.
- All cash lump sums will be taxed in terms of the retirement lump sum tax tables.
- If you choose to postpone the date on which you want to start receiving your retirement benefit and you choose to keep your whole retirement benefit in the Fund, you will:
 - Still be allowed to take a portion of your savings component every tax year and it will be taxed at your marginal tax rate
 - Remain invested in the same investment portfolio(s) you were in as an active member, but will be able to switch to any one of the other investment portfolios that are available in the Fund.
 - Not be eligible for any insurance benefits.
 - Not make any further contributions towards the Fund.
 - You must advise the Fund of the date on which you want your retirement benefit to be paid.

Processing of your retirement benefit.

While we process your retirement claim, we will place your retirement benefit in the Fund's bank account to eliminate the possibility of it reducing because of volatile market conditions.

Members electing a life pension in the Fund:

Members choosing to receive an In Fund life pension from the Fund must indicate the chosen level of spouse's pension payable to their surviving spouse upon their death after retirement.

NB: Please note that the higher the after-retirement A "Full life pension from the Fund " means that I (the MEMBER) will only receive a monthly pension and NO gratuity will be paid out. This option is an irrevocable option and no request will be made in the future to withdraw a cash amount from my Member's share. spouse's benefit you choose, the lower your initial pension will be.
